DETAILED ACTION

1. The Applicants' amendment filed on January 6, 2005 was received. Claims 6-20 are deleted. Claims 1-5 are amended.

2. The text of those sections of Title 35, U.S. code not included in this action can be found in a prior Office Action (Paper No. 0904).

Claim Objection

3. Claim objection of Claim 4 is maintained because the rejection is adequately set forth in paragraph 4 of Paper No. 0904.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

6. Claims 1-2 and 4-5 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for the specific C6-30 aromatic based substituents attached to specific linking groups described in [0015], does not reasonably provide enablement for an aromatic group covalently attached to any aromatic based substituents attached to any linking groups set forth in the instant claims. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention commensurate in scope with these claims.

Claim Rejections - 35 USC § 102

7. Claims 1-2 and 4-5 rejected under 35 U.S.C. 102(b) as being anticipated by Gaylord (US 3 808 178).

Gaylord discloses a polysiloxanylalkyl ester monomer having the structure described in col. 1, line 61 to col. 2, line 9, wherein the end of the polysiloxanylalkyl group can be a triphenylsiloxy group as exemplified in the structure described in col. 2, lines 48-50. Since the linking group can be any linking group, Gaylord still anticipates the instant claims.

Allowable Subject Matter

8. Claim 3 is allowed.

9. The following is an examiner's statement of reasons for allowance:

The present claims are allowable for at least the following reason(s) over the closest reference: Gaylord.

Gaylord does not teach or fairly suggest the specific aromatic-based siloxane macromonomer set forth in the instant claim.

10. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be
